## MONSTER TRUCK

My truck is my house every night and every day  
I follow my faith and I never change my way  
I hate super cars going fast all the time  
The rich men who drive and the glamorous girls beside

Obey!

You're so smug, self-assured, you big head I **can't stand your hair!**  
With your life with your wife with your shoes, get out of my way!  
**There's a powerful beast marching on that drives straight on your face**  
Cause my truck doesn't stop doesn't care

Stop and hear my sound!

**The Monster Truck's around...**

**I'll override your world!**

The monster truck is your lord!

I'm here with my weight making laws and giving rules  
You feel like an horse but you're just like a mule  
I decide your faith cause I'm the judge of the road  
I come with my truck we're so big we're so rude!

Take care!

You go fast, overpass, you make fun 'till you stop, I'll be there!  
**There's no mercy for you start to pray!**

Stop and hear my sound!

**The monster truck's around...**

**I'll override your world!**

The monster truck is your lord!

### **DON'T FORGIVE**

Your final destination is out here  
I made this desolation, no more tears  
You payed in a petrol station all your sins  
Forget all your addictions

**There's no need**

Your fate was undefeatable  
Your life belongs to the past  
Your end was unescapable  
I know that it has been too fast

**Don't try to find a reason**

**Don't blame me**

You died by my decision  
Yes indeed

If you look deep in your consciousness

**You'll see for what I did it**

**Don't mind if you don't understand it**

**It's late for you and for me**

**Leave me alone**

**Just think about my fist**

**While I swim in the bones**

**I feel like an evil beast**

**Living this world**

**I'm happy**

**Everything's over, thank me!**

Remember my name

**I'm huge and I don't forgive**

You all look like white phantoms

**Don't you see?**

You looked so boring and shallow

Bloody wimps

Prepare your life in hell

**I'll watch you burn again**

You lived in your golden cells

**I'll give you death and pain**

## SEXY MAN

When I look in the mirror I see a beautiful face  
Just a scent of a woman and I get lost in space..

In the night I go hunting  
Looking for some good preys  
And I feel like a Viking  
Just get down on my way  
**I'm a Sexy Man!**

**I give you some freedom**  
**I give you the joy**  
Oh yeah!  
**I'm a Sexy Man!**

I give you a good reason  
to play with this toy  
Oh Yeah!  
**I'm a Sexy Man!**

When I'm under your sheets  
You say I'm cool and I'm huge  
I put a price on your love and nobody can judge!

Cause I pay...  
Yes I pay!  
I don't know other way  
I can change with no pain  
And I'm making happy my preys  
**I'm a Sexy Man!**

I give you some freedom  
**I give you the joy...**  
Oh yeah!  
**I'm a Sexy Man!**

I give you a good reason  
to play with this toy  
Oh Yeah!  
**I'm a Sexy Man!**

### ZERO ZERO

Zero Zero, hidden secret hero  
Terrorism, wars and lots of missions  
I live moving pieces, playing my invisible game  
I use my brain, that's my way of fighting  
I give you pain and torture while I'm spying,  
I can control, handle foresee everything

Here comes my fate and I cannot hide  
I felt secure for all my life  
I found the endless breath in a place  
That was out of my control  
**As soon as I rest, here's my fall**

Zero Zero, hiding everywhere,  
Like an eagle, deadly and unfair  
Flying over enemies before called friends  
With no rules, limits or regrets  
Just love myself and the weapon in my pants  
I don't know fear, I'm confident when I do pretend

Here comes my fate and I cannot hide  
I felt secure for all my life  
I found the endless breath in a place  
that was out of my control  
**As soon as I rest, here's my fall**

### TELL ME NOW

Tell me now how should I feel, down here  
Tell me now what does this mean...  
Tell me now why your pain's not scaring me  
I'm finding out how empty a lonely heart can be

What I was looking for  
Was only some peace for we all,  
But I've found only more reasons to kill

I lived a life running away from myself  
The finish line shows me how wrong has been  
But I would like to see people living free  
In another life I'd try not to be so weak

After this crazy fight  
I know what is wrong and what's right  
Thinking over my mistakes and regrets  
After this messy night no one can see the light  
Every place I go through turns to hell

**I know oh**  
**I know**  
**I know oh**

Tell me how I burned their lives right now  
I hate the crowd but watching them die I fell down

There's no forgive for me now  
A butcher who tortures his cows  
Only sadness, fear and bodies pulled out...  
No one can save my soul, I cannot avoid my fall  
**I'm alone and I have no one to call**

**I know oh**  
**I know**  
**I know oh oh**

## CAN'T EVEN CRY

That Friday, bloody Friday  
My fate started goin' back  
My life was shining when I was driving  
I felt so sure of myself  
I thought that my career made me invincible  
I Could buy things and people...

But now I'm dead and suddenly everything ends  
That truck's so evil, he's the one that really commands

**So now I'm gonna die, don't know why**  
**A monster took my life, I can't even cry**  
**I'm loosing girls and fame**  
Feel my pain  
That monster truck fucks up my game

I was going fast, I was the best  
My snow was always with me...  
With girls and partners in pricey hotels  
Leading people and teams  
And with my supercar ruling on the road  
I went so fast so far

But now is over, even though I was a star  
He walked all over me when I was out of my car

**So now I'm gonna die, don't know why**  
**A monster took my life, I can't even cry**  
**I'm loosing girls and fame**  
Feel my pain  
That monster truck fucks up my game

### ANESTHESIA

You take some pills and you like how you feel  
You swing in the ocean and you hope to sink  
**You'd like to fly** just to stop for a while  
You try to survive...  
You might as well disappear

**You're life so boring, your job's depressing**  
Your wife is a stone, and she tastes like a bone  
**Your dog's like a mouse, you're** the last in your house  
Stop hoping and just cry... **and realize you'd better die**

You **can't run free in another world**  
Without a crash like this  
Becomes a gift from hell now

**Anesthesia! Anesthesia! Anesthesia!**

Wake up and live, **there's nobody here**  
You feel like an horse and forget your remorse  
No rules and no bills, clean air and green fields  
**You live like a king..**  
**And you're the lord of the rings**

You **can't run free in another world**  
Without a crash like this  
Becomes a gift from hell now  
And every tear disappears  
**So now you're free in another world!**

**Anesthesia! Anesthesia! Anesthesia!**

I thank you man, **I didn't know your plan**  
You killed the right guy 'cause you made him fly!  
My death is my freedom, it gives me back my rhythm  
**Such a grateful fate...**

So now you're free un another world

**Anesthesia! Anesthesia! Anesthesia!**

## Modern Electric Trio

### BIKER

I feel like a beast roaming fast all around  
The road flows under my wheels  
My body, my heart and my hair are vibrating  
I feel like an horse running free

I ride a mechanical bull sounding loud  
But I treat it like a beautiful chick  
I fight all the time with my bros to survive  
**We lay down our low and don't you speak**

The only ones  
We keep alive our freedom  
We ride the wind and fly to the sky

We go on  
Without us you **can't be safe**  
All the things are under control  
**And you don't** try to judge our honor

We are brave and always ready to go  
You should know that soldiers are essential  
We fight for people and for **Rock'n'Roll**

**What we do with our bike**  
**What we do just for ride**  
**Is something huge you cannot defeat**  
**When we speed by your side**  
**Just slow down for a while**  
**Try to think that we never hide**

That truck seems to be like a monster  
Who threatens me  
I need it to show me respect!  
**It's looks like a joker**  
Having fun trying bullying me  
**I'm a Boss with a gang to protect**

But I know that to keep alive our freedom  
I have to move and show all my hate  
Stop right now  
**Your truck's in our kingdom**  
**You're not allowed to kill anyone**

# HUGE - LYRICS

Modern Electric Trio

What we do with our bike  
What we do just for ride  
Is something huge you cannot defeat  
When we speed by your side  
Just slow down for a while  
Try to think that we never hide  
Stop your run, face your fear  
Just get down on your knees  
Because **we're bikers, we rule for real**  
Come and see how you feel  
With a bike and two wheels  
We live and die just to live our dream
